

ESD DIAGONAL CUTTERS FOR DIP-CMS COMPONENTS

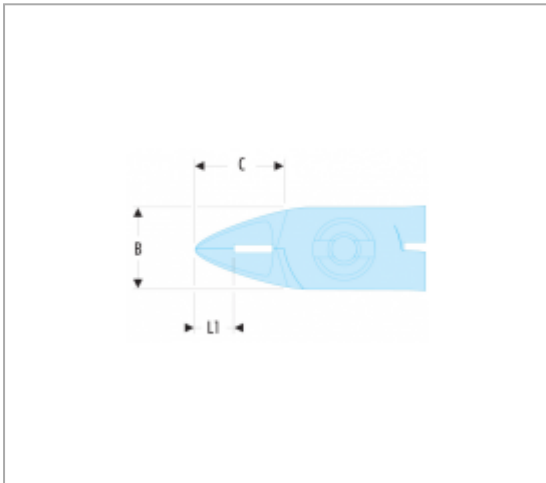

Standards :

NF ISO 9654, ISO 9654, DIN ISO 9654, ASME B107.500

Description :

- Protection of electronic components from risks of electrostatic discharge (ESD).
- These pliers provide access between two legs of "DIP" components with a 0.65 mm gap. Due to their shape, these pliers can be used only in this configuration.
